

2nd

Second grade has a lot of review, so that students truly master all the skills that were taught in first grade. Along with reviewing, your child will be learning to recognize familiar words more rapidly, reading new words, adding and subtracting faster, composing more complex sentences, spelling many new words, and increasing their vocabulary. Remember, second grade will have more homework and responsibility for your child; guide them through these daily tasks.

Key Goals:

Apply more complex phonics skills in reading

Write sentences using correct punctuation and capitalization

Recognize and use nouns and action verbs in sentences

Write legibly in cursive

Add and subtract any 2-digit number

Handle place value for 3-digit whole numbers

Identify time to include half-hour and 5-minute intervals

Identify the value of pennies, nickels, dimes, quarters, half-dollars, and dollars

Value people from many cultures

Develop a simple understanding of life, earth, and physical sciences
