

## **Preschool & Pre-K**

At NCA we believe children who are happy and having fun, while learning, quickly adjust to school life. All of the children are encouraged to participate in their own learning through play, song and interaction with their classmates and teachers. Our mission is to provide a safe, caring, inviting environment, to ensure that children are learning and that parents are happy and feel included in their children's daily care and education.

We aim to:

Provide a safe, caring and stimulating environment

Use a well-balanced curriculum using song, art, play and structured learning

Teach children that learning is fun

Keep an open communication with parents
